

Leaving a gift in your Will

Saying who you want to help in your Will is the best way to be really sure that your wishes are clearly understood.

Leaving a gift in your Will — however big or small — will help us to assist more people in need in the future.

£500

Could help us to buy new wheelchairs for free loan to those who need them

£1000

Could help us to set up more social groups and activities to brighten the lives of isolated and lonely people.

£10,000

Could help us to keep our Youth Club for disabled children running for a whole year

£50,000

Could help us to set up a training project for adults with learning disabilities, to equip them with skills for work in the future

Your Legacy. Their Future.

Community Support

Your Legacy. Their Future.

Help build their future, today!

Connex Community Support is a local charity that helps people in need to live safer and more fulfilled lives.

Every year, through our unique range of support and care services, we help over 4000 people in the Derbyshire Dales and High Peak. We provide help with transport to vital medical appointments, support lonely and isolated older people through our Befriending services, hire out wheelchairs, run youth clubs for disabled children, and run first class care services.

Many of our services are free, those that do have a fee are subsidised. This helps keep them affordable for the people who need our help the most. So we depend on fundraising and donations to help sustain what we do and grow our important work to reach even more people.

You could help to support us and build the future for people in need, by leaving a gift to Connex Community Support in your Will.

A lasting legacy can enable us to help more people like Edith and Adam

Edith's story

Edith is 89 and lives alone. With no family nearby and many of her friends gone, she has little social contact with others.

Our Befriending service supports Edith and many others like her, providing company and friendship, and helping to reduce loneliness and isolation.

Adam's story

Adam is a happy 12 year old who has multiple disabilities. We provide tailored one-to-one support to help him build skills and confidence for his future.

Adam's sister Amy also benefits from attending our Sibling Support group, where she can meet other children with similar family situations.
